SCIENTIFIC INNOVATION FOR A BETTER SKIN

Our dedicated scientist is fascinated by the wonders of nature and are committed to unlocking the secrets of plant longevity to extract active ingredients for life-long benefits. We understand nature and its active ingredients to help us preserve the skin ecosystem and combat aging.

Our expertise in organic chemistry has enabled us to develop exclusive complexes that stabilize fragile compounds from plants. This has allowed us to formulate clean and highly effective skincare solutions to fight the signs of aging.

Our advanced technology, combined with the finest natural botanicals, has resulted in the most exclusive, innovative actives that help health professionals, dermatologists, plastic surgeons, and patients maintain healthy, youthful, and glowing skin.

Nature's
longevity secrets

Clean & clinical
skincare

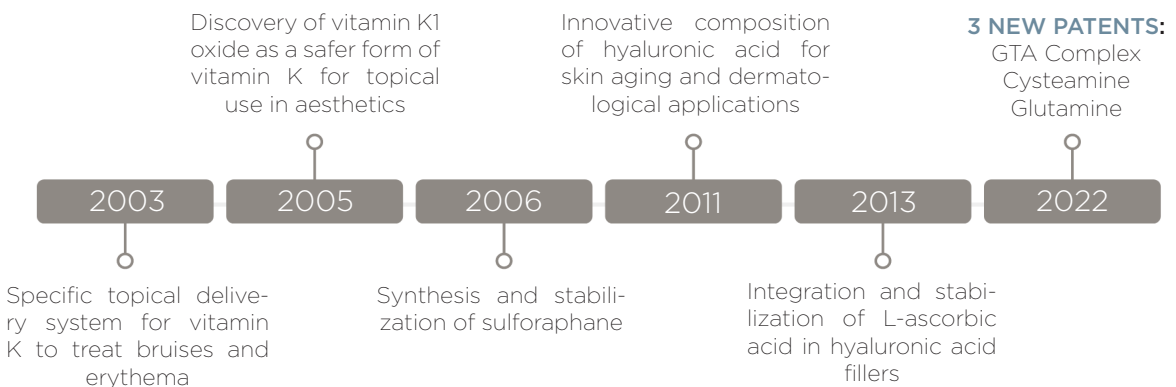

Dr. Alfred Marchal, *Organic Chemistry PhD*

A pioneer in the search for cutting-edge antioxidant complexes, Dr. Alfred Marchal is developing innovative products for ALPHASCIENCE.

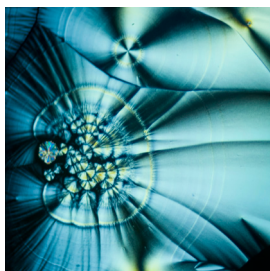

He is an internationally recognized expert in the field of antioxidants and aesthetic medicine, boasting an academic experience of 35 years in R&D. With numerous scientific papers and patents on Vitamin C stabilization and Vitamin K1-oxide under his name, Dr. Marchal is a regular keynote speaker at medical congresses.

In 2016, he co-founded ALPHASCIENCE and has since worked as the Head of Research, developing the anti-aging treatments of the future and creating exclusive solutions to fight skin aging. He managed to stabilize for the first time Tannic acid and L-Glutamine. He created a unique NextGen® Vitamin C complex, proven to be stable on the long term, under heat conditions and in the skin.

DR MARCHAL'S PATENTS:

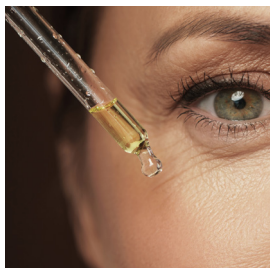

WORLDWIDE EXCLUSIVE INNOVATIONS

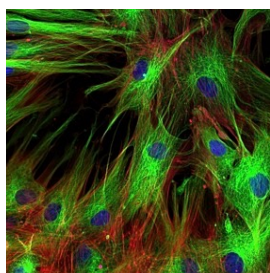

L-ASCORBIC ACID

Based on a unique associative antioxidant complex, our unique NextGen® Technology ensures the stabilization of highly concentrated L-ascorbic acid even at high temperature.

TANNIC ACID

Alphascience has managed to use highly concentrated Tannic Acid in its formulas to protect, restore and maintain the integrity of skin cells for exceptional protective results.

L-GLUTAMINE

L-Glutamine has been vectored by Alphascience as a dipeptide which acts as a powerful collagen booster to reduce wrinkles and improve skin density.

STABLE CYSTEAMINE

After a long period of research, Alfred MARCHAL succeeded in stabilizing cysteamine for the first time, thanks to our Nextgen® technology.

GTA COMPLEX

It is a revolutionary complex of two active ingredients against dark circles, bruises and equimoses.

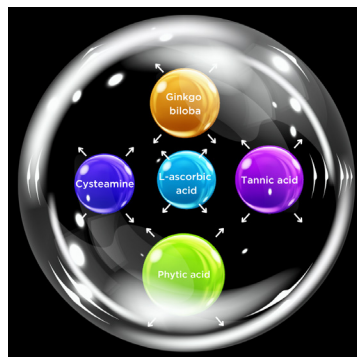

NEXTGEN® TECHNOLOGY COMPLEXES

Thanks to the modulation of antioxidants' ionization, our technology allows the stabilization of the most powerful and fragile molecules such as pure Vitamin C, Tannic Acid and Cysteamine.

Instable water based system

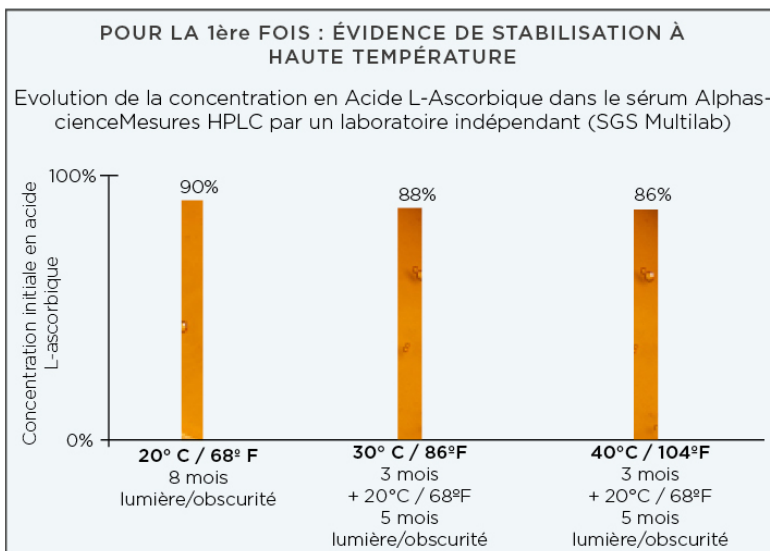

Antioxidants degradation by ionization and electron exchanges.

Stable water based system

A shield is created by an ionization modulator system.

With NextGen® technology, the most fragile antioxidant: Vitamin C is stable even in heat (3 months at 40 C° / 104 F), and inside the skin (12h of activity) which makes it the ideal technology to accompany aesthetic procedures.

FRENCH ADVANCED AESTHETIC SOLUTIONS

Alphascience has developed a daily routine to accompany aesthetic procedures for all skin types.

POST PROCEDURE

REGEN [HX]

TANNIC [CF] SERUM

SKIN TYPE

Dry and sensitive skin

Revitalizing age defying concentrate

- Advanced signs of skin ageing such as wrinkles, brown spots, redness and loss of firmness caused by environmental and biological factors
- Blood-vessel fragility
- Photodamage repair

AESTHETIC PROCEDURES

Enhancement of anti-aging and firming procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP

USE

Apply 3-4 drops once in the morning using a gentle massage with the fingertips to face, neck, décolleté and back of the hands before applying your normal moisturizer.

pH 3,9
30ml / 1 fl oz

Fragrance-free
+ Preservative-free
+ Alcohol-free

AGE DEFYING ANTIOXIDANT SERUM

INGREDIENTS: ISOPENTYLDIOL, PROPYLENE GLYCOL, AQUA, ASCORBIC ACID, GINKGO BILOBA LEAF EXTRACT, ETHOXYDIGLYCOL, TANNIC ACID, PEG-8 DIMETHICONE, FERULIC ACID, GALLIC ACID, AMINOMETHYL PROPANOL

KEY INGREDIENTS

2% Tannic Acid - ALPHASCIENCE EXCLUSIVITY

Pollutants scavenger. Antioxidant. Regulates pigmentation, stimulates collagen synthesis, protects blood vessels.

10% Stabilized L-Ascorbic Acid

Powerful antioxydant. Stimulates collagen synthesis and epidermis turnover. Regulates pigmentation.

0.5% Ferulic Acid

Repairs DNA cells damaged and protects human dermal fibroblast (HDF) against UVA radiation.

Ginkgo Biloba concentrate

Antioxidant. Improves skin tissue irrigation.

CLINICAL RESULTS

ROSACEA

Application of TANNIC [CF] SERUM Monotherapy twice a day for 3 weeks

PHOTO-AGING

TANNIC CF SERUM + ULTRA DEEP Twice a day for 2 months

PHYTIC [TC] SERUM

SKIN TYPE

Normal to combination skin

Radiance perfecting antioxidant concentrate

- Wrinkles, fine lines, brown spots and dull complexion induced by age
- Photoaging correction, protection against UV, pollution and oxidative stress factors
- Anti-aging for acne prone skin

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP, LED

USE

Apply 3-4 drops once in the morning using gentle massage to face, neck and décolleté before applying your normal moisturizer.

pH 3,3
30ml / 1 fl oz

Fragrance-free
+ Preservative-free
+ Alcohol-free

SOOTHING & SKIN RADIANCE ANTIOXIDANT SERUM

INGREDIENTS: PROPYLENE GLYCOL, ISOPENTYLDIOL, AQUA, ASCORBIC ACID, GINKGO BILOBA LEAF EXTRACT, ETHOXYDIGLYCOL, PEG-8 DIMETHICONE, PHYTIC ACID, AMINOMETHYL PROPANOL, GLYCERETH-26, TANNIC ACID, GALLIC ACID

KEY INGREDIENTS

8% Stabilized L-Ascorbic Acid

Antioxidant, stimulates collagen synthesis, boosts epidermis turnover, limits melanin transfer to keratinocytes.

2% Phytic Acid

Antioxidant, pollutant scavenger, hydrates and normalizes skin sebum, regulates pigmentation.

0,2% Tannic Acid

Powerful antioxidant, strengthens the protective capabilities of the formula, stimulates collagen synthesis.

Ginkgo Biloba Concentrate

Improves skin tissue irrigation for a better skin radiance.

CLINICAL RESULTS

Phytic [TC] serum 4 months + NDYag laser 6 sessions
Cortesy of Dr Chantes - Plastic Surgeon

MELA BRIGHT [C+]

NEW 2023

pH 3.85
30ml / 1 fl oz

Hydroquinone-free
+ Fragrance-free
+ No added preservative

SKIN TYPE

All skin types

Including prototype V to VI

Age discoloration cysteamine serum

- Aging skins, post-menopause, age spots
- Not for pregnant or breastfeeding women
- Suitable for sensitive skins
- All phototypes including V to VI

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Laser, Microneedling, Peelings, IPL, Microdermabrasion, Dermabrasion.

USE

Apply morning or evening in small quantity to the clean, dry affected areas using a gentle massage. Complete with sun cream with a high sun protection factor.

IMPORTANT: Cysteamine has a characteristic scent. Thanks to our Nextgen® stabilization technology, this scent does not change over time, including heat, and will disappear after a few minutes after application to the skin. It is therefore not necessary to rinse but apply Mela Bright [C+] in small quantities and complete with a moisturizer or sunscreen.

CYSTEAMINE BRIGHTENING ANTIOXIDANT SERUM

INGREDIENTS: PROPYLENE GLYCOL, ISOPENTYLDIOL, AQUA, ASCORBIC ACID, GINKGO BILOBA LEAF EXTRACT, CYSTEAMINE HCL, ETHOXYDIGLYCOL, PHYTIC ACID, ACETYL GLYCYL BETA-ALANINE, PEG-8 DIMETHICONE, AMINOMETHYL PROPANOL, CITRIC ACID, SODIUM CITRATE, GLYCE-RETH-26.

KEY INGREDIENTS

3% Stable Cysteamine - ALPHASCIENCE PATENT

Safe and powerful antioxidant that effectively inhibits tyrosinase and peroxidase and increases levels of intracellular glutathione

8% Stabilized L-ascorbic acid

Antioxidant, limits melanin transfer, stimulates collagen synthesis, prevents spots formation and enhances skin radiance.

1% Phytic Acid

Antioxidant, pollutant scavenger, regulates pigmentation, normalizes skin sebum.

Acetyl Glycyl β -Alanine

Powerful spot corrector and lightening peptide, with 4-level mechanism on melanogenesis.

Ginkgo Biloba Concentrate

Antioxidant, improves skin tissue irrigation and skin radiance.

CLINICAL RESULTS

Efficacy on melasma of MELA BRIGHT [C+]
Dr Nakano, AOI Clinic Tokyo

M0

M2

M4

Results after 4 months of use

- A reduction in the intensity of pigmentation of up to 42%
- Evaluated as being as effective than Hydroquinone 4%
- Refines, smooths the skin and reduces open pores

ALPHA BRIGHT SERUM

SKIN TYPE
All skin types

Inner glow revealing concentrate

- Dark spots induced by environmental factors (sun, drugs, pollution) and hormonal changes (pregnancy, aging)
- Dull complexion, post-inflammatory and post-acne hyperpigmentation
- Suitable for pregnant women

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, Microneedling, Radio Frequency, Peeling, PRP, LED

USE

Apply morning and evening to the affected areas using a gentle massage. Apply at night 3 to 4 drops to the palm of your hand and use your fingertips to evenly smooth over face and neck.

pH 3,7
20ml / 0.68 fl oz

Fragrance-free
+ Preservative-free
+ Alcohol-free
+ Hydroquinone-free

BRIGHTENING ANTIOXIDANT SERUM

INGREDIENTS: PROPYLENE GLYCOL, ISOPENTYLDIOL, AQUA, ASCORBIC ACID, GINKGO BILOBA LEAF EXTRACT, ETHOXYDIGLYCOL, ACETYL GLYCYL BETA-ALANINE, PEG-8 DIMETHICONE, PHYTIC ACID, AMINOMETHYL PROPANOL, GLYCERETH-26.

KEY INGREDIENTS

8% Stabilized L-Ascorbic Acid

Antioxidant, stimulates collagen synthesis, boosts epidermis turnover, limits melanin transfer to keratinocytes.

2% Phytic Acid

Antioxidant, pollutant scavenger, hydrates and normalizes skin sebum, regulates pigmentation.

Acetyl Glycyl β -Alanine

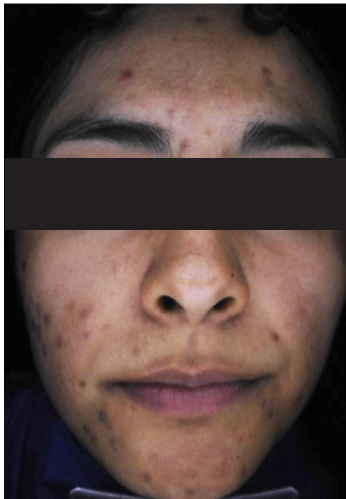

Powerful spot corrector and lightening peptide, with 4-level mechanism on melanogenesis.

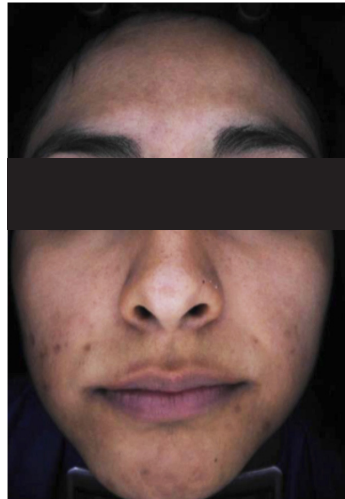

CLINICAL RESULTS

Post inflammatory hyperpigmentation

Mexico, 6 months study on 40 cases
42% Reduction of Post-acne hyperpigmentation

ALPHA BRIGHT SERUM STERILE AMPOULES

SKIN TYPE
All skin types

pH 3.7
10 x 2 ml

Fragrance-free
+ Preservative-free
+ Alcohol-free
+ Hydroquinone-free

Professional use: Microneedling

For professional use apply according to the specific protocol.

Recommended volume:

- 2ml / 1 ampoule for face area
- 4ml / 2 ampoules for face, neck and décolleté

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Microneedling

USE

Use the applicator tip to safely open the ampoule. When it is open, place the applicator tip. Now you can remove its cap and dispense the serum.

MICRONEEDLING STERILE AMPOULES

INGREDIENTS: PROPYLENE GLYCOL, ISOPENTYLDIOL, AQUA, ASCORBIC ACID, GINKGO BILOBA LEAF EXTRACT, ETHOXYDIGLYCOL, ACETYL GLYCYL BETA-ALANINE, PEG-8 DIMETHICONE, PHYTIC ACID, AMINOMETHYL PROPANOL, GLYCERETH-26.

KEY INGREDIENTS

8% Stabilized L-Ascorbic Acid

Antioxidant, stimulates collagen synthesis, boosts epidermis turnover, limits melanin transfer to keratinocytes.

2% Phytic Acid

Antioxidant, pollutant scavenger, hydrates and normalizes skin sebum, regulates pigmentation.

Acetyl Glycyl β -Alanine

Powerful spot corrector and lightening peptide, with 4-level mechanism on melanogenesis.

CLINICAL PROTOCOL

BEFORE

To enhance the results of aesthetic procedures, always apply an ALPHASCIENCE antioxidant serum before for at least 4 days to prepare the skin. Ideally apply during more than 14 days.

The skin will be prepared against the oxidative stress induced by the procedure.

PROCEDURE

- 1 Cleansing/Makeup removal with a gentle cleanser
- 2 Clean the face and other area prepared for the treatment with an antiseptic solution
- 3 Apply the ALPHA BRIGHT SERUM STERILE AMPOULES
- 4 Gently massage the skin
- 5 Use the micro-needling device with round movements
- 6 Gently massage the skin during 2 minutes
- 7 Clean the treated area with antiseptic solution
- 8 Apply REGEN [Hx] (2 tube pressures)

AFTER

It is recommended to apply morning and evening, a half of an ALPHA BRIGHT sterile ampoule or 4 drops of ALPHA BRIGHT SERUM during the following days on your face, neck and décolleté. Wait 2 minutes to apply REGEN [Hx] as a mask with a gentle massage.

From the 4th day, replace REGEN [Hx] by your favourite daily moisturizer and continue using ALPHA BRIGHT SERUM in combination with a SPF 50 sun protection.

CLINICAL RESULTS

Courtesy of Dr VOLKOVA.

Microneedling 0,5-0,7mm + ALPHA BRIGHT SERUM, 10 days between sessions
2 sessions of microneedling

HA BOOSTER SERUM

SKIN TYPE

All skin types
Dehydrated skin

Plumping moisture concentrate

- Dryness
- Optimal and adaptive moisturization. It reinforces the natural barrier function of the skin and helps to protect it against environmental damages.
- A unique formula designed to boost hyaluronic acids levels in all epidermis layers to restructure, durably hydrate and replump the skin.

AESTHETIC PROCEDURES

Hydration after all cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP

USE

Apply morning and night to the face and neck with a light massage. Use after antioxidant serums and/or before the cream.

pH 5.5
30ml / 1 fl oz

Fragrance-free
+ Alcohol-free

MOISTURIZING PLUMPING SERUM

INGREDIENTS: AQUA (WATER), BETAINE, GLYCERIN, ETHOXYDIGLYCOL, ISOPENTYLDIOL, METHYLPROPANEDIOL, SODIUM HYALURONATE, HYALURONIC ACID, JANIA RUBENS EXTRACT, SILANETRIOL, DISODIUM EDTA, DEHYDROACETIC ACID, PHENETHYL ALCOHOL, SODIUM HYDROXIDE, CITRIC ACID, POLYQUATERNIUM-51, SODIUM CARRAGEENAN, CHLORPHENESIN, BENZYL ALCOHOL.

KEY INGREDIENTS

5% Complex of Organic Silicium + Hyaluronic Acid

Favors the penetration of hyaluronic acid and stimulates the proliferation of keratinocytes.

1.5% Vegetal taurine

Boosts cellular energy, provides antioxidant and anti-pollution protection, enhances osmoregulation.

0.5% Pure hyaluronic acids

High and low molecular weight.

Biomimetic moisturizing polymer

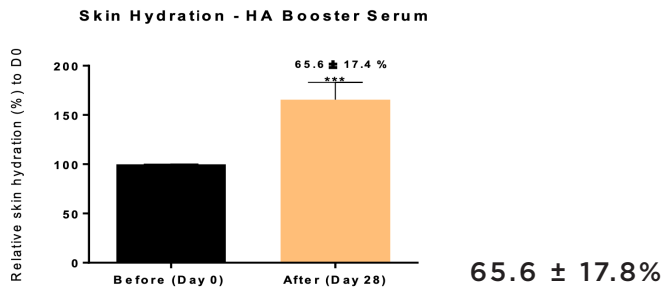

Optimal and adaptive moisturization. Thanks to its high affinity with the skin, it reinforces the natural barrier function of the skin and helps to protect it against environmental damages.

CLINICAL RESULTS

Clinical study on 20 volunteers, aged from 25 to 55. Topical treatment during 28 days with HA BOOSTER SERUM in the face and neck areas, twice per day.

SKIN HYDRATION : +65,6% WITH HA BOOSTER SERUM

EXCELLENT TOLERANCE FOR 100% OF PATIENTS ANTI-AGING EFFICIENCY

FIRMER SKIN 85%

SMOOTHER SKIN 85%

PLUMPER SKIN 80%

Results showed that treatment with HA BOOSTER SERUM after 28 days of treatment significantly increased skin hydration levels by 65.6 ± 17.4 %, comparing each volunteer with its own control at day 0.

SURFACE [CR]

SKIN TYPE
All skin types

Multi-active lifting solution

- 25-30 years, early signs of wrinkles and sagging skin
- Photo-aging
- Long term lift effect on wrinkles and firmness from the combination of pure genistein and glutamine, an ALPHASCIENCE exclusivity.
- Immediately improves the appearance of small expression with the “botulinum toxin-like” patented tripeptide

AESTHETIC PROCEDURES

Enhancement of rejuvenation treatments.

USE

Creamy emulsion, to be applied morning and evening to face and neck after an ALPHASCIENCE antioxidant serum.

30ml / 1 fl oz

Paraben-free
+ Alcohol-free
+ Phenoxyethanol-free

ANTI-AGING CREAM

INGREDIENTS: AQUA, CYCLOPENTASILOXANE, CAPRYLIC/CAPRIC TRIGLYCERIDE, PROPANEDIOL DICAPRYLATE, POLYGLYCERYL-3 METHYLGLUCOSE DISTEARATE, ALANYL GLUTAMINE, ISOPENTYLDIOL, GLYCERIN, CETEARYL ALCOHOL, PENTAERYTHRITYL DISTEARATE, GLYCERYL STEARATE, JOJOBA ESTERS, GENISTEIN, SODIUM HYALURONATE, TOCOPHEROL, DIPEPTIDE DIAMINO BUTYROYL BENZYLAMIDE DIACETATE, POTASSIUM CETYL PHOSPHATE, DIMETHICONE/VINYL DIMETHICONE CROSSPOLYMER, SODIUM BENZOATE, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, CITRIC ACID, XANTHAN GUM, DISODIUM EDTA, SODIUM HYDROXIDE, POTASSIUM SORBATE, CHLORPHENESIN, BHT, PARFUM

KEY INGREDIENTS

2% L-glutamine - ALPHASCIENCE EXCLUSIVITY

Key ingredient responsible for collagen production with anti-glycation effect to reduce wrinkles.

2% Patented tripeptide

Smooths the skin by immediately relaxing the muscles that mark the expression lines. Long lasting and fully reversible action.

Pure Genistein

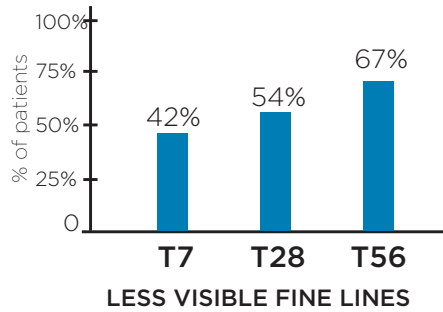

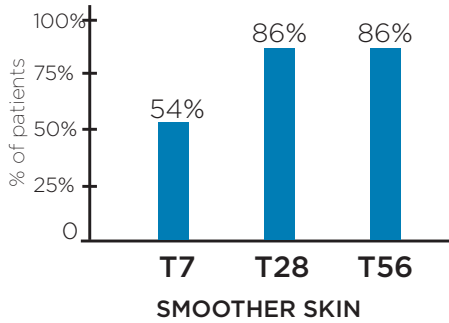

Prevents collagen degradation and improves its quality for a firmer skin.

Hyaluronic Acid

2 different molecular weight to fill the wrinkles and optimize the natural moisture of the skin.

CLINICAL RESULTS

DERMATOLOGICAL RESULTS IN 2 MONTHS

Monocentric study in dermatological clinic with 20 women, average age 55.

Courtesy of BELANGE MEDICAL CENTER - BELGIUM

ULTRA DEEP

SKIN TYPE

Dry to normal skin

Fundamental firming cream

- Mature skin (pre and post menopause)
- Thin skin with loss of resilience and accompanying sagging and visible small blood vessels.
- Uneven skin complexion
- Prevents and repairs photodamage

AESTHETIC PROCEDURES

Enhancement of rejuvenation and vascular treatments.

USE

Apply morning and evening to face, neck and décolleté after an Alphascience antioxidant serum.

50ml / 1.7 fl oz

Paraben-free
+ Phenoxyethanol-free

ANTI-AGING CREAM

INGREDIENTS: AQUA (WATER), DIPENTAERYTHRITYL HEXACAPRYLATE/HEXACAPRATE, GLYCERIN, SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL, POLYETHYLENE, PENTAERYTHRITYL DISTEARATE, CYCLOPENTASILOXANE, DIMETHICONE, ISOPENTYLDIOL, MYRISTYL MYRISTATE, JOJOBA ESTERS, CETYL ALCOHOL, GLYCERYL STEARATE, BUTYROSPERMUM PARKII (SHEA BUTTER), HYDROXYPROPYL STARCH PHOSPHATE, PEG-75 STEARATE, HYDROGENATED STARCH HYDROLYSATE, PARFUM (FRAGRANCE), AESCULUS HIPPOCASTANUM (HORSE CHESTNUT) SEED EXTRACT, SODIUM BENZOATE, SODIUM HYALURONATE, CETETH-20, STEARETH-20, CI 77891 (TITANIUM DIOXIDE), GENISTEIN, POTASSIUM SORBATE, HYDROLYZED LUPINE PROTEIN, MICA (CI 77019), CHLORPHENESIN, ISOMALT, ALCOHOL, BUTYROSPERMUM PARKII (SHEA) BUTTER UNSAPONIFIABLES, XANTHAN GUM, POLYSORBATE 80, DISODIUM EDTA, PEG-8, CITRIC ACID, LECITHIN, TOCOPHEROL, ASCORBYL PALMITATE, YELLOW 6 (CI 15985), SOY ISOFLAVONES, SAPONARIA PUMILA CALLUS CULTURE EXTRACT, ASCORBIC ACID, RED 4 (CI 14700)

KEY INGREDIENTS

Saponaria stem cells

Activates dermal stem cells to densify and firm the skin.

Lupine protein

Increases collagen synthesis to thicken the skin.

Encapsulated genistein

Prevents collagen degradation and improves its quality for a firmer skin.

Aescin

Reduces the appearance of redness and small blood vessels.

Hyaluronic Acid

2 different molecular weight to fill the wrinkles and optimize the natural moisture of the skin.

CLINICAL RESULTS

AFTER 1 MONTH

Evaluation during 1 month by 20 women, mean age 58. Application of ULTRA DEEP twice a day. France & Belgium 2016.

2 months of ULTRA DEEP use. The patient is 35 years old

ULTRA FIRM

SKIN TYPE

Normal to combination skin

Neck and Face Sculpting concentrate

- Firming and unifying action, silky and mattifying texture, ULTRA FIRM redefines the contours of the face, neck and décolleté, to restore their shape and firmness.
- Nourishing and lifting, ULTRA FIRM will transform the look of the skin, appearing more defined and sculpted.

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP

USE

Apply morning or evening to face, neck and décolleté, massaging gently into the skin. As a complement to aesthetic firming procedures, such as under-chin cryolipolysis. After 2 to 10 days according to skin condition.

50ml / 1.7 fl oz

Paraben-free
+ Phenoxyethanol-free

FIRMING CREAM

INGREDIENTS: AQUA, SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL, JOJOBA ESTERS, GLYCERIN, ALANYL GLUTAMINE, CAPRYLIC/CAPRIC TRIGLYCERIDE, ISOPENTYLDIOL, MYRISTYL MYRISTATE, POLYGLYCERYL-2 STEARATE, GLYCERYL STEARATE, STEARYL ALCOHOL, LENTINUS EDODES EXTRACT, SODIUM HYALURONATE, SOY ISOFLAVONES, ASCORBYL PALMITATE, PHYTIC ACID, ASCORBIC ACID, TOCOPHEROL, HYDROXYPROPYL STARCH PHOSPHATE, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, XANTHAN GUM, LECITHIN, PEG-8, SODIUM CITRATE, SODIUM HYDROXIDE POLYSORBATE 80, O-CYMEN-5-OL, DISODIUM EDTA, POTASSIUM SORBATE, SODIUM BENZOATE, POLYETHYLENE, ALCOHOL, CHLORPHENESIN, PARFUM, CITRIC ACID.

KEY INGREDIENTS

2% Shiitake complex - INNOVATION

Minimizes carbamylation levels. Boosts collagen synthesis and helps to reduce collagen deterioration for a better quality.

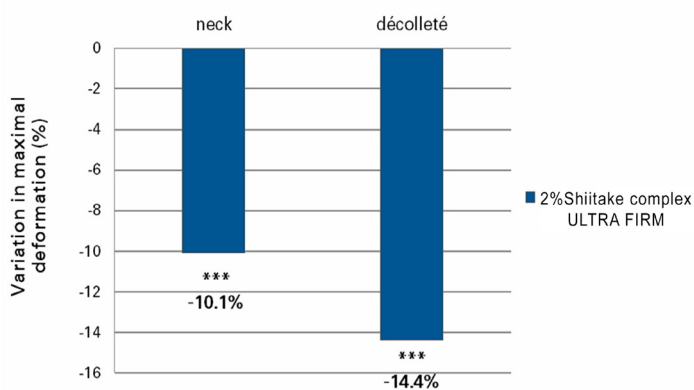

2% L-Glutamine

Boosts collagen synthesis for intense lifting effect.

2% Genistein

Improves collagen quality and boosts skin elasticity. Balances skin's oestrogen levels. Minimizes glycation. Evens the skin complexion.

CLINICAL RESULTS

0 days

56 days

EYE MATRIX

SKIN TYPE
All skin types

Global lifting eye contour concentrate

- Specially chosen weights of Hyaluronic acid to improve skin resistance, hydrate and smooth the skin
- Global anti-aging treatment for eye contour: expression lines, loss of firmness, eye circles, eye bags.

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP

USE

Apply morning and evening to the eye contour.

All skin types. Fresh gel texture.

Suitable for sensitive eyes and after aesthetic procedures.

15ml / 0.50 fl oz

Paraben-free
+ Fragrance-free

EYE CONTOUR

INGREDIENTS: AQUA (WATER), CYCLOPENTASILOXANE, GLYCERIN, CAPRYLIC /CAPRIC TRIGLYCERIDE, ALANYL GLUTAMINE, MYRISTYL MYRISTATE, JOJOBA ESTERS, CETYL ALCOHOL, GLYCERYL STEARATE, SODIUM HYALURONATE, MAGNOLOL/HONOKIOL, ADENOSINE, TOCOPHEROL, PEG-75 STEARATE, DIPEPTIDE DIAMINO BUTYROYL BENZYLAMIDE DIACETATE, SOY ISOFLAVONES, POLYGLYCERYL-6 OLEATE, ACRYLATES/ C10-30 ALKYL ACRYLATE CROSSPOLYMER, POLYSORBATE 80, TROXERUTIN, STEARETH-20, SORBITAN PALMITATE, LECITHIN, DISODIUM EDTA, POLYGLYCERYL-10 LAURATE, DIMETHICONE/ VINYL DIMETHICONE CROSSPOLYMER, XANTHAN GUM, SODIUM HYDROXIDE, ALCOHOL, PHENOXYETHANOL, CHLORPHENESIN, CETETH-20.

KEY INGREDIENTS

5% L-Glutamine + Genistein - EXCLUSIVITY

Boosts collagen synthesis for intense lifting effect.

2% Botox-like patented tripeptide

Immediate smoothing effect on small expression lines.

3% Niosome Troxerutin - EXCLUSIVITY

Reduces dark circles and enhances lightening.

2% Hyaluronic Acids

Improves skin resistance, hydrates and smoothes the skin.

CLINICAL RESULTS

Tested under dermatological and ophthalmological control:
Clinical study of more than 20 subjects within 8 weeks of use.

- 80% Firmer eye contour
- 85% Strengthened skin
- 75% Smoother eye contour
- 55% Less visible dark circles

RESULTS AFTER BLEPHAROPLASTY

Excellent tolerance at application 8-10 days after eye contour surgery
Evaluation on 10 patients by Dr Yves WALSCHOT, Plastic Surgeon, Belgium

REGEN [Hx]

SKIN TYPE
Sensitive skin

30ml / 1 fl oz

Paraben-free
+ Fragrance-free
+ Alcohol-free

Post procedure perfecting soothing treatment

- Promote skin restructuration, moisturization, recovery and comfort after non-ablative and midly ablative procedures.
- Soothes immediately
- Improves skin quality

AESTHETIC PROCEDURES

Enhancement of cosmetic procedures:

Lasers, HIFU, Botulinum Toxin, HA Fillers, Microneedling, Radio Frequency, Peeling, PRP, cryotherapy, electrocoagulation

USE

Apply morning and evening to the affected area using a gentle massage. Can be applied just after the procedure. Do not apply directly on open wound, not suitable for post surgery healing. Avoid contact with the eyes.

POST PROCEDURE

INGREDIENTS: AQUA (WATER), SNAIL SECRETION FILTRATE, GLYCERIN, OCTYLDODECANOL, ISOPENTYLDIOL, SODIUM ACRYLATES COPOLYMER, RIBES NIGRUM (BLACK CURRANT) SEED OIL, PHENOXYETHANOL, LECITHIN, SODIUM HYALURONATE, CHLORPHENESIN, GLYCINE SOJA SEED EXTRACT, HELIANTHUS ANNUUS SEED OIL UNSAPONIFIABLES, CELLULOSE, HELIANTHUS ANNUUS (SUNFLOWER) SEED OIL, DISODIUM EDTA, O-CYMEN-5-OL, CARDIOSPERMUM HALICABUM FLOWER/LEAF/ VINE EXTRACT, TOCOPHEROL, ROSMARINUS OFFICINALIS (ROSEMARY) LEAF EXTRACT.

KEY INGREDIENTS

5% Helicine complex

Increases the epithelization process with its action on cells membrane and collagen. Boosts the epidermis turnover to promote healthy tissue formation.

3% Natural defense system (black currant seed oil, balloon vine extract)

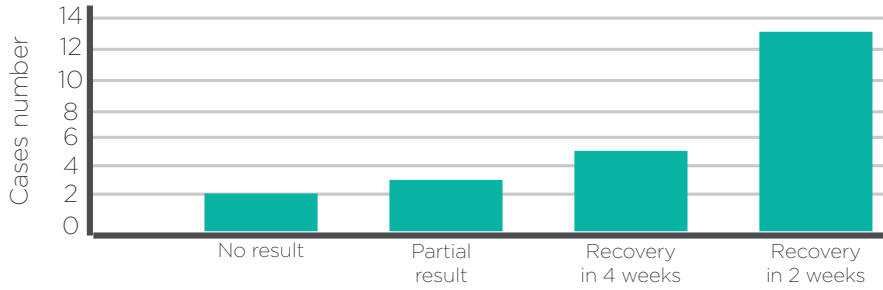

Soothing and anti-inflammatory. It protects and replenishes the damaged skin barrier, reduces allergic reactions and tissue damages.

3% Hyaluronic acid

Stimulates skin cells productions, improves skin resistance, hydrates and smoothes the skin.

CLINICAL RESULTS

Total recovery in 2-4 weeks for 78% of 23 patients, partial for 13% of patients.

3 months of using REGEN [Hx] after injury
